# DAAD-Medical Programme / PAGEL

**(Partnerships for the health sector in developing countries)**

## Brief information

DAAD Ärzteprogramm / PAGEL

Who can apply?

German higher education institutions in partnership with a higher education institution from a developing country for a cooperation regarding the health sector.

Which measures are fundable?

- Measures that target structural enhancement of the university education and further training and also the teaching, research, service and management at universities for sustainable strengthening of the health sector;
- Measures that professionally prepare students at German universities from developing countries for an appropriate assignment in their home country;
- Measures that foster the life long learning of the alumni within subject related networks with the involvement of universities, organisations for development cooperation and health authorities in the developing countries;
- Measures that promote the alumni's continuous connection with Germany and establish them as multipliers;

For what time period and to what extent is funding provided?

Up to 120,000 € / year for the following measures:

- Partnerships with universities
  max. 50,000 €/year (for south-south exchange in case of more than one partner in developing countries additionally max. 25.000 €/year)
- Weekend workshops in Germany
  max. 12,000 €/workshop
- Alumni further training in Germany or abroad
  max. 60,000 €/event
- Internships in developing countries for reintegration facilitation

Funding period ⇒ maximum 4 years.
