

Industrial Engineering Faculty

Mission

We are a high academic quality faculty, consisting of a pluralistic and tolerant team that creates, develops, consolidates and applies knowledge in fields such as scientific, technological, economic, social, humanistic, environmental, business and organizational.

We are forming business leaders with high social sensitivity, based on values ??and committed to the economic and political development, regionally, nationally and internationally.

Vision

Faculty of high academic quality, competitive in teaching, research and extension processes, articulated effectively with the national and international scientific community, and with social recognition.
